

Lectures proposed by the Faculty Board of Clinical Veterinary Medicine

The lectures and courses of practical instruction in Anatomy and Physiology (including the lectures in Veterinary Physiology) prescribed for students who intend to take, or seek exemption from, the Qualifying Examination in Veterinary Anatomy and in Veterinary Physiology, and the lectures and courses in Pathology and Pharmacology, will be found in the lists of lectures, announced for these subjects in the Medical and Veterinary Sciences Tripos by the Faculty Board of Biology (p. 165). For particulars of fees prescribed for these courses see p. 2.

The following lectures, which also include practical instruction and demonstrations, constitute courses prescribed by the Faculty Board of Clinical Veterinary Medicine for the Final Veterinary Examinations, Parts I, II and III. The fee payable for attendance at these courses is the University Composition Fee.

These courses will be given at the Veterinary School unless otherwise stated, and will begin on the Monday which next precedes the first day of Full Term. Locations and timings for the lectures, practicals, seminars etc. in various courses can be obtained on request from the Tutorial Assistant, Department of Clinical Veterinary Medicine, Madingley Road (Telephone (7)66365)

---	---	---

PART III, SECTIONS (I) AND (II)

There are few formal lectures for the Final Veterinary Examination Part III. Course work in the final year consists mainly of practical instruction in Case Responsibility, in Clinical Groups and in Demonstrations. Students also study an elective subject during the latter part of Lent Term, the Easter Vacation and beginning of Easter Term.

MR J. ROBINSON AND OTHERS
Veterinary Dentistry. Practicals
One day course

MR A. R. JEFFERIES
Orthopaedic Pathology. Lectures
MR M. RICHER
R.C.V.S. Ethics. Lectures
