STUDENT NUMBERS 2008–09

UNIVERSITY OF
CAMBRIDGE

800 YEARS
1209 – 2009

PUBLISHED BY AUTHORITY

PRICE £1.65

TABLE OF CONTENTS

*Notes**Comparative and all-student tables*

- Table 1 Full-time equivalent student load (Men/Women), 1968–2008
 Table 2 Full-time equivalent student load (Arts/Science), 1968–2008
 Table 3 Full-time equivalent student load by academic group cost centre, 2008–09
 Table 4 Full-time student numbers (Men/Women), 1968–2008
 Table 5 Full-time student numbers by University fee eligibility, 1980–2008
 Table 6 Full-time and part-time students admitted to their current courses in the years 1980–2008 by University fee eligibility
 Table 7 Full-time student numbers for students with Overseas fee eligibility by tuition fee band, 1980–2008
 Table 8 HESES 2008 Return: Actual student numbers, assumed registrations, and assumed full-time equivalents (FTEs) for the academical year 2008–09
 Table 9a Numbers of students with a full-time mode of study by course of study, 2008–09
 Table 9b Numbers of students with a part-time mode of study by course of study, 2008–09
 Table 10 Students admitted to their current course in October 2008, by course of study and mode of study
 Table 11 Graduate students on the Register of Graduates by School and Degree Committee, 2008–09

College tables

- Table 12a Full-time student numbers by College, 2008–09
 Table 12b Part-time postgraduate student numbers by College, 2008–09
 Table 13 Students admitted to their current course in October 2008, by College and mode of study

Undergraduate and affiliated student tables

- Table 14 Undergraduate student numbers by subject, 2005–06 to 2008–09
 Table 15a Students admitted to their current undergraduate course in October of the given year by subject, 2007–08 and 2008–09
 Table 15b Students admitted to their current advanced undergraduate course in October of the given year by subject, 2007–08 and 2008–09
 Table 15c Students admitted to their current advanced undergraduate course in October of the given year by subject and Cambridge/non-Cambridge graduate status, 2007–08 and 2008–09
 Table 16 Affiliated student numbers by subject, 2008–09 (These numbers are included in Table 14.)

Overseas student tables

- Table 17 Full-time student numbers for students with Overseas fee eligibility by country of normal residence, 2008–09
 Table 18 Country of normal residence for full-time students who have EU fee eligibility or have Refugee status, 2008–2009
 Table 19 Full-time Overseas (non-British nationals) student numbers by nationality, 2008–09

Examination results

- Table 20 Honours Examination results, 1960–2009
 Table 21 Men's Honours Examination results, 2009
 Table 22 Women's Honours Examination results, 2009
 Table 23 Men's and women's Honours Examination results, 2009
 Table 24 Men's Preliminary and other examination results, 2009
 Table 25 Women's Preliminary and other examination results, 2009
 Table 26 Men's and women's Preliminary and other examination results, 2009
 Table 27 Degrees conferred, 1991–2008

Appendix Definition of science-based and arts-based courses as at 1 December 2008

STUDENT NUMBERS

The Registry begs leave to publish the following information on student numbers.

Notes to Tables 1 to 19:

(a) All headcount data are for the student population as at 1 December 2008. This is the census date for the Higher Education Student Early Statistics (HESES) survey submitted to the Higher Education Funding Council for England (HEFCE) in December of each year. The University also makes an annual return to the Higher Education Statistics Agency (HESA). This return provides more detailed information on individual students and covers the period 1 August 2008 to 31 July 2009. The full-time equivalent student load data are based on the HESA reporting period.

(b) The terms used in this publication are consistent with those used by HEFCE/HESA unless stated otherwise. However, in the time-series tables, up to and including 1993–94, UGC/UFC (the bodies that preceded HEFCE) definitions have been used in cumulative tables, and the figures were calculated at the UGC/UFC census date of 31 December.

(c) The headings ‘Undergraduate/Postgraduate’, ‘Arts/Science’, ‘Full-time/Part-time’, in these tables are as defined by HESA. The division of Faculties and Departments between Arts and Science is shown in the Appendix.

(d) Complete lists of courses designated ‘undergraduate’ or ‘postgraduate’ are shown in Table 9a (full-time courses) and Table 9b (part-time courses).

(e) Students are classified as ‘full-time’ if they are undertaking a full-time course and have not completed the minimum requirements of their course (i.e. they are neither writing up nor are under examination) and are not intermitting. Students are classified as ‘part-time’ if they are undertaking a part-time course and have not completed the minimum requirements of their course and are not intermitting. Students who have completed the minimum requirements of their course and are not intermitting are classified as either ‘full-time writing up/under exam’ or ‘part-time writing up/under exam’. Up to and including 2005–06, students undertaking a part-time course and students writing up/under exam (either full-time or part-time) were classified together as ‘not full-time’.

(f) Time series data should be interpreted taking account of recent changes in the definitions of ‘full-time’, ‘not full-time’, ‘writing up/under exam’, and in the allocation of FTE (full-time equivalent) load, for postgraduate students for different periods of their career, as follows:

Up to and including 2004–05, postgraduate students undertaking a full-time course were recorded as ‘full-time’ for the required terms of their course and after those terms were completed as ‘not full-time’. For example, a three-year Ph.D. was recorded as ‘full-time’ in the first nine terms (and allocated an FTE load of 100% for each year) and as ‘not full-time’ in and after the tenth term (and allocated an FTE load of 50% for each complete subsequent year).

In 2005–06 and 2006–07, postgraduate students undertaking a full-time course were recorded as ‘full-time’ for the required terms of their course plus one extra term, and thereafter as ‘not full-time’ (defined as ‘full-time writing up/under exam’ in 2006–07). Thus in 2005–06 the typical three-year Ph.D. student was recorded as ‘full-time’ in the first ten terms and from the eleventh term onwards as ‘not full-time’ (‘full-time writing up/under exam’ in 2006–07). The allocation of FTE load was 100% for the first ten terms, and zero in and after the eleventh term. The annual load was therefore 100% for each of the first three years, 33% for the fourth year (in respect of the tenth term) and zero for all subsequent years.

From 2007–08 postgraduate students undertaking a full-time course are recorded as ‘full-time’ for the required terms of their course and as ‘full-time writing up/under exam’ if they have completed the required terms. Thus the typical three-year Ph.D. student is recorded as ‘full-time’ in the first nine terms and from the tenth term onwards as ‘full-time writing up/under exam’. The allocation of FTE load is 100% for the first nine terms and zero in and after the tenth term. The annual load is therefore 100% for each of the first three years, and zero for all subsequent years.

In and after 2005–06, the head count of student numbers in Table 6 includes the Master of Studies courses; students on those courses are included in the FTE load for all years. However, before 2005–06, the load attributed to students registered on M.St. courses was assigned to cost centre 41 (Institute of Continuing Education). In and after 2005–06, M.St. student load has been reassigned to the appropriate cost centres based upon the relevant M.St. department course owners.

The effects of these changes in definitions are:

- In comparison to 2004–05, the number of postgraduate students defined as ‘full-time’ in 2005–06 and 2006–07 increased, but the associated FTE load decreased. The addition of part-time Master of Studies students further increased the head count of students in Table 6.
- In comparison to 2006–07 totals, both the number and the FTE load of postgraduate students defined as ‘full-time’ in 2007–08 decreased.

(g) Further information about these tables, or on the approach to the statistics, may be obtained from the Student Statistics Office, University of Cambridge, Greenwich House, Madingley Rise, Madingley Road, Cambridge, CB3 0TX (email Student.Statistics@admin.cam.ac.uk).

Incoming and outgoing ERASMUS students and incoming MIT students are excluded because they do not pay fees.

From 1982–83 the courses in Development Studies were discontinued. Previously about 25 students on the course, who paid no University Composition Fees, were classified as Overseas 'Arts' students and included in the postgraduate numbers.

From 1980 to 1990 'Other' refers to the pre-1980 rate of overseas fees. Thereafter it refers to any fee not otherwise specified as 'Arts', 'Science', or 'Clinical' (for example, the M.B.A.).

¹ UG – Undergraduates, PGT – Postgraduates taught, PGR – Postgraduates research

² This column represents the overall assumed number of registrations or load for the academical year 2008–09, taking into account non-completions and registrations after 1 December.

³ Courses are classified as 'long' if students are normally required to attend for 45 weeks or more within the year.

⁴ Allocation of students to price groups. Students are allocated to Faculties and Departments according to an agreed formula. Faculties and Departments are allocated to cost centres in accordance with instructions provided by HEFCE (see Appendix). Cost centres are then allocated to the various price groups in accordance with HEFCE rules.

Students at the Institute of Continuing Education are excluded.

Students following part-time courses at the Cambridge Programme for Sustainability Leadership and part-time INSET courses (In-Service Education of Teachers) at the Faculty of Education are also excluded from this table. Data for these students are included in Table 10.

Medical and Veterinary Students are shown as such, irrespective of the Tripos examination for which they are entered in the current year (e.g. third-year Medical Students reading Archaeology and Anthropology).

The following courses are in a state of transition: Education Studies to Education; Oriental Studies to Asian and Middle Eastern Studies; and Social and Political Sciences to Politics, Psychology, and Sociology.

TABLE 15a. *Students admitted to their current undergraduate course in October of the given year by subject, 2007–08 and 2008–09*

Note: Table 15 is now broken down into three tables (15a, 15b and 15c) to provide a breakdown of the number of students admitted to undergraduate and advanced undergraduate courses, and, for advanced undergraduate courses, the number of Cambridge and non-Cambridge graduates.

Notes

The following courses are in a state of transition: Education Studies to Education; Oriental Studies to Asian and Middle Eastern Studies; and Social and Political Sciences to Politics, Psychology, and Sociology.

From 2008–09, students progressing from the Mathematical Tripos to the Cert. Adv. Study in Mathematics did so as part of an integrated degree (B.A. + Cert. Adv. Study in Mathematics in Table 9a). Prior to 2008–09, most Cambridge students took the B.A. and then were admitted to read the Cert. Adv. Study in Mathematics.

'Affiliated student' is defined as any person who, before matriculation in the University of Cambridge, has received or become qualified to receive a degree from another institution of higher education, subject to approval. Students who already hold a Cambridge degree are thus excluded from this definition and are recorded as 'graduate students reading Triposes'. These definitions are not used by HEFCE/HESA. Table 16 includes data for both affiliated students and the small number of Cambridge graduates reading Triposes (seven Home students). Up to and including 2006–07, the tables excluded Cambridge graduates reading Triposes.

Commonwealth countries classification is as at 1 December 2008.				Grand total	2,254	3,255	5,509
This table excludes students with British nationality.				Unknown nationality	16	35	51

NOTES TO TABLES 20–26

1. These statistics *exclude*:
 - (a) candidates who took examinations as candidates ‘not for Honours’ (with the exception of Part III of the Mathematical Tripos)
 - (b) candidates who have spent the year abroad studying at the Massachusetts Institute of Technology or studying in Paris as part of the Double Maîtrise. These results are shown separately with Table 26 so that they shall not affect the percentages in the main tables.
 - (c) unclassified preliminary examinations (in History, Linguistics, Classics, and Education) and the First Examination for the Degree of Bachelor of Theology for Ministry. These results are shown separately with Table 26 so that they shall not affect percentages in the main tables.
 - (d) candidates for: (i) Diploma and Certificate examinations; (ii) Oral examinations in Modern Languages; and (iii) Mus. B. examination
 - (e) candidates about whom an application has been submitted to the Applications Committee but who were still awaiting a decision at the time these tables were produced.
2. The heading ‘Other results’ includes (but does not differentiate between):
 - (a) candidates who failed their examinations
 - (b) Honours candidates who have received an allowance from the Examiners
 - (c) candidates who have received allowances (deemed to have deserved honours (DDH) or granted an allowance towards the Ordinary degree) by the Applications Committee of the Council. (Allowances may be granted to candidates who have been ill or who have extenuating circumstances and have thus been prevented from taking an examination or whose performance has been adversely affected as a consequence.)
3. In Part III of the Mathematics Tripos, a pass with distinction or merit has been counted as a Class I and a pass as Class II, division (1). This applies whether or not the candidate is a candidate for Honours. In Part II of the Manufacturing Engineering Tripos and Part IIB of the Engineering Tripos, a pass with distinction has been counted as Class I, a pass with merit has been counted as Class II, division (1) and a pass as Class II, division (2).
4. The class obtained in each language by candidates entered for two languages for Part IA of the Modern and Medieval Languages Tripos has been counted as half a class. This explains why, in some years, the number of cases under each class division for this tripos and in the totals are not whole units.
5. Third-year pre-clinical medical and veterinary students are included under the Tripos examination for which they were entered.
6. The following courses are in a state of transition: Education Studies to Education; Oriental Studies to Asian and Middle Eastern Studies; and Social and Political Sciences to Politics, Psychology, and Sociology.

TABLE 20. Honours Examination results, 1960–2009

	Class I		Class II division (1)		Class II undivided		Class II division (2)		Class III		Other results		Total candidates

Notes:

(a) The introduction of Part IA of the Natural Sciences Tripos in 1966 and the undividing of Part IA of the Medical and Veterinary Sciences Tripos in 2001 accounts for the large increases in the undivided Second Class. Conversely, the division of the Second Class of the Mathematics Tripos in 1995 led to a substantial decrease.

(b) + Candidates who were taking examinations as candidates 'not for Honours' and candidates receiving allowances from the Applications Committee of the Council were excluded from the 1972 statistics (and thereafter) although they had been included in previous years. Candidates receiving allowances from the Applications Committee were included again from 2008. Candidates for the LL.B. Examination were included in 1972 for the first time, but the LL.M. Examination was excluded from 1999. Candidates for the B.Ed. Degree were excluded from the statistics for the years 1972–79 inclusive, but, with the introduction of the Education Tripos, have been included from 1980.

Totals	34	18.8	113	62.4	17	9.4	13	7.2	2	1.1	2	1.1	181

Note:

These tables exclude unclassified Preliminary Examinations in Classics, Education, History, Linguistics, and the First Examination in Theology for Ministry, which were as follows:

	Pass	Other*	Totals
Classics IA	11	—	11
Classics II	2	—	2
Education I	43	—	43
First Examination for the Bachelor of Theology for Ministry Degree	21	—	21
History I	186	14	200
Linguistics I	3	—	3
Totals	266	14	280

* 'Other' includes candidates who took insufficient papers to obtain a pass.

These tables also exclude the following numbers of students who were deemed to have obtained Honours whilst studying abroad:

<i>At MIT</i>	
Chemical Engineering Part I	1
Economics Part IIA	1
Engineering Part IIA	6
Manufacturing Engineering Part I	2
Mathematics Part IB	1
Natural Sciences Part II	7
<i>At Paris II</i>	
Law Part II	7
Total	25

APPENDIX

Definition of science-based and arts-based courses as at 1 December 2008

Numbers and descriptions of cost centres are as per HEFCE definition.

1. *Science-based cost centres*

	<i>Cambridge Faculties, Departments, etc.</i>
(01) Clinical Medicine*	School of Clinical Medicine Pathology
(03) Veterinary Science*	Veterinary Medicine
(04) Anatomy and Physiology	Physiology, Development, and Neuroscience
(08) Pharmacy and Pharmacology	Pharmacology
(10) Biosciences	Biochemistry Biological Anthropology Chemical Engineering and Biotechnology (part) Experimental Psychology Genetics Plant Sciences Wellcome Trust/Cancer Research UK Gurdon Institute Zoology
(11) Chemistry	Chemistry
(12) Physics	Astronomy Physics
(14) Earth, Marine, and Environmental Sciences	Earth Sciences Scott Polar Research Institute
(16) General Engineering	Engineering
(17) Chemical Engineering	Chemical Engineering and Biotechnology (part)
(18) Mineral, Metallurgy, and Materials Engineering	Materials Science and Metallurgy
(20) Electrical, Electronic, and Computer Engineering	Computer Science and Technology (part)
(23) Architecture, Built Environment, and Planning	Architecture Architecture and History of Art (part) Land Economy
(24) Mathematics	Applied Mathematics and Theoretical Physics Pure Mathematics and Mathematical Statistics
(25) Information Technology and Systems Sciences	Computer Science and Technology (part)
(37) Archaeology	Archaeology Archaeology and Anthropology (part)

* Note that pre-clinical Medical and Veterinary students will be recorded under their various departments in other groups.

2. *Arts-based cost centres*

	<i>Cambridge Faculties, Departments, etc.</i>
(27) Business and Management Studies	Judge Business School
(28) Geography	Geography

(29) Social Studies	African Studies Archaeology and Anthropology (part) Criminology Development Studies Committee Economics Latin-American Studies Law Politics, Psychology, Sociology, and International Studies Social Anthropology South Asian Studies

3. Non-University institutions

For the purpose of calculating student load, graduate students working in the institutions listed below are allocated to the various cost centres (and subsequently to the arts/science sub-totals) on the following basis:

<i>Non-University institution</i>	<i>Cost centre</i>
Animal Health Trust Newmarket	Veterinary Science
Babraham Institute, BBSRC	Biosciences
Biostatistics Unit, MRC	Clinical Medicine
British Antarctic Survey, NERC	Earth, Marine, and Environmental Sciences
Broom's Barn Experimental Station	Biosciences
Cancer Cell, MRC Unit	Clinical Medicine
Cognition and Brain Sciences Unit, MRC	Psychology and Behavioural Sciences (cost centre 07)
Cambridge Crystallographic Data Centre	Chemistry
Epidemiology, MRC Unit	Clinical Medicine
European Bioinformatics Institute	Biosciences
Human Nutrition Research, MRC Collaborative Centre	Clinical Medicine
Mitochondrial Biology, MRC Unit	Clinical Medicine
Molecular Biology, MRC Laboratory	Clinical Medicine
National Institute for Agricultural Botany (NIAB)	Biosciences
Protein Engineering, MRC Centre	Biosciences
Wellcome Trust Sanger Institute	Clinical Medicine
